### AUSTRALIA, EAST COAST.

*South Channel, Wide Bay Bar—Depth of water; Beacon erected.*

No. 555 (third publication).—The Portmaster, Brisbane, has given Notice (No. 6 of 1909) that this channel now carries a minimum depth of 14 feet 6 inches at L.W.O.S.T., and its use by vessels of light draft is recommended in preference to the North Channel, owing to the fact that a vessel would carry the sea behind her, whereas in the North Channel the sea is on the broadside.

To facilitate the navigation of this Channel a triangular beacon has been erected, which is to be kept in line with the back square beacon on Hook Point bearing N. 89° W. until Inskip Point lead comes in line, when proceed as usual.

By following these directions a depth of 14 feet 6 inches at L.W.O.S.T. will be obtained.

*Cockle Spit, Approach to Port Pirie—Beacon erected.*

*No. 25 (first publication).*—With reference to Notices to Mariners, Nos. 449 and 267, dated, respectively, the 13th November 1905 and 3rd June 1907, issued by this office, the President of the Marine Board, Port Adelaide, has given further Notice (No. 18 of 1909) that a pile beacon, carrying a clock-faced tide gauge, has been erected on the eastern end of Cockle Spit, in 17 feet L. W. S., near the position formerly occupied by the old tide gauge.

The clock faces north-west  $\frac{1}{2}$  north, and will be illuminated at night with all possible regularity, but as from its exposed position difficulty may be experienced in attending to its lighting in bad weather, mariners are hereby warned not to trust to its being invariably illuminated under such conditions.

The dial is numbered from 0 to 11, beginning at the top and following round in the same direction as the figures on a clock, and the hand indicates the height above low-water spring tides. To ascertain the depth of water available in Port Pirie Creek therefore, the rise indicated on the tide gauge should be increased by 15 feet, the least present depth in the creek at L.W.S.

*Cockle Spit, Approach to Port Pirie—Beacon erected.*

No. 22 (second publication).—With reference to Notices to Mariners, Nos. 449 and 267, dated, respectively, the 13th November 1905 and 3rd June 1907, issued by this office, the President of the Marine Board, Port Adelaide, has given further Notice (No. 18 of 1909) that a pile beacon, carrying a clock-faced tide gauge, has been erected on the eastern end of Cockle Spit, in 17 feet L. W. S., near the position formerly occupied by the old tide gauge.

The clock faces north-west  $\frac{1}{2}$  north, and will be illuminated at night with all possible regularity, but as from its exposed position difficulty may be experienced in attending to its lighting in bad weather, mariners are hereby warned not to trust to its being invariably illuminated under such conditions.

The dial is numbered from 0 to 11, beginning at the top and following round in the same direction as the figures on a clock, and the hand indicates the height above low-water spring tides. To ascertain the depth of water available in Port Pirie Creek therefore, the rise indicated on the tide gauge should be increased by 15 feet, the least present depth in the creek at L.W.S.

*Cockle Spit, Approach to Port Pirie—Beacon erected.*

No. 23 (third publication).—With reference to Notices to Mariners, Nos. 449 and 267, dated, respectively, the 13th November 1905 and 3rd June 1907, issued by this office, the President of the Marine Board, Port Adelaide, has given further Notice (No. 18 of 1909) that a pile beacon, carrying a clock-faced tide gauge, has been erected on the eastern end of Cockle Spit, in 17 feet L. W. S., near the position formerly occupied by the old tide gauge.

The clock faces north-west  $\frac{1}{4}$  north, and will be illuminated at night with all possible regularity, but as from its exposed position difficulty may be experienced in attending to its lighting in bad weather, mariners are hereby warned not to trust to its being invariably illuminated under such conditions.

The dial is numbered from 0 to 11, beginning at the top and following round in the same direction as the figures on a clock, and the hand indicates the height above low-water spring tides. To ascertain the depth of water available in Port Pirie Creek therefore, the rise indicated on the tide gauge should be increased by 15 feet, the least present depth in the creek at L.W.S.

Approximate position, lat.  $33^{\circ} 4' S.$ , long.  $137^{\circ} 58' 30' E.$

Charts affected.—Nos. 2388B and 403 (Admiralty).

APPENDIX TO  
**The Calcutta Gazette.**

WEDNESDAY, FEBRUARY 9, 1910.

NOTICES TO MARINERS.

The following Notices are published for general information.

Calcutta, the 2nd February 1910.

L. BUTLER,  
*Secy. to the Govt. of Bengal.*

BRITISH POSSESSIONS.

I.

*Caution when approaching British Ports.*

No. 46 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

## II.

## EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) At the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(a) Three red vertical lights if the port is closed.

(b) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

### BRITISH POSSESSIONS.

#### I.

*Caution when approaching British Ports.*

No. 46 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished:—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manoeuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

#### II.

### EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(a) Three red vertical lights if the port is closed.

(b) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

### BRITISH POSSESSIONS.

#### I.

*Caution when approaching British Ports.*

No. 46 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished:—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

#### II.

### EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships, which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(a) Three red vertical lights if the port is closed.

(b) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

*No. 129 (first publication).*—With reference to this office Notice to Mariners No. 155, dated the 1st April 1909, the President of the Marine Board, Port Adelaide, has given further Notice (No. 1 of 1910) that the Red light mentioned therein, exhibited from the lower part of the tower, and showing over the Scrapper shoal from about south by west until shut in by the high land of Cape St. Albans, will be discontinued on the 1st May next.

*This affects Admiralty charts Nos. 2589B, 1014 and 25.*

## SOUTH AUSTRALIA—WEST COAST.

(1) *Venus bay—Beacons erected.*(2) *Beard bay—Buoy and beacon established.*

No. 130 (first publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 2 of 1910) that—

- (1) *Venus bay*.—A pair of leading beacons, 500 ft. apart, painted white and having triangular tops, have been erected on the north side of the entrance to Venus bay. These kept in line N. 28° E. lead over the deepest water on the outer bar. Also that a beacon, painted red, having a triangular top, has been placed on the south side of the channel just above No. 1 Red Beacon. This beacon in line with No. 1 Black Beacon N. 67° E. leads over the deepest water on the inner bar and midway between the two points forming the entrance.

Vessels entering the bay should steer for the outer white leads until the inner black and red leads come in line; then steer for them until well over the bar, from whence the black beacon is to be kept on the port hand, as usual.

Approximate position of front white beacon, lat. 33° 13' S., long. 134° 39' E. •

- (2) *Beard bay*.—A red perch buoy has been placed in three and a half fathoms L.W.S. inside the rocky bar at the entrance to Beard bay. This buoy kept in line with Calca Bluff N. 7° W. leads over the deepest and generally smoothest water on the bar, giving a depth not less than 10 ft. at L.W.S. Also that a beacon, painted black, having a triangular top, has been erected on the top of the sandhill on the west side of the entrance. In line with the perpendicular cliff of Cape Radstock S. 42° W. it leads clear of the N.W. edge of Propeller rock, which is situated about half a cable N. ■ W. from the buoy, and has on it about 6 ft. at L.W.S.

Vessels intended for entering should steer for the buoy in line with Calca Bluff, and when inside the bar keep the buoy on the starboard hand and steer N.N.W. until the beacon comes on with the cliff of Cape Radstock, after which clear anchorage with at least 2½ fathoms will be found from N.N.W. to N.E. for 3 cables, beyond which the bay gradually shoals to about 3 ft. at L.W.S. 1½ miles from the entrance.

Approximate position of buoy, lat. 33° 11' S., long. 134° 21' E. All bearings are magnetic.

These affect Admiralty charts Nos. 1061 and 1066.

## SOUTH AUSTRALIA—WEST COAST.

- (1) *Venus bay*—Beacons erected.  
 (2) *Beard bay*—Buoy and beacon established.

No. 136 (second publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 2 of 1910) that—

- (1) *Venus bay*.—A pair of leading beacons, 500 ft. apart, painted white and having triangular tops, have been erected on the north side of the entrance to Venus bay. These kept in line N. 23° E. lead over the deepest water on the outer bar. Also that a beacon, painted red, having a triangular top, has been placed on the south side of the channel just above No. 1 Red Beacon. This beacon in line with No. 1 Black Beacon N. 67° E. leads over the deepest water on the inner bar and midway between the two points forming the entrance.

Vessels entering the bay should steer for the outer white leads until the inner black and red leads come in line; then steer for them until well over the bar, from whence the black beacon is to be kept on the port hand, as usual.

Approximate position of front white beacon, lat. 33° 13½' S., long. 134° 39½' E.

- (2) *Beard bay*.—A red perch buoy has been placed in three and a half fathoms L.W.S. inside the rocky bar at the entrance to Beard bay. This buoy kept in line with Calca Bluff N. 7° W. leads over the deepest and generally smoothest water on the bar, giving a depth not less than 10 ft. at L.W.S. Also that a beacon, painted black, having a triangular top, has been erected on the top of the sandhill on the west side of the entrance. In line with the perpendicular cliff of Cape Radstock S. 42° W. it leads clear of the N.W. edge of Propeller rock, which is situated about half a cable N. x W. from the buoy, and has on it about 6 ft. at L.W.S.

Vessels intended for entering should steer for the buoy in line with Calca Bluff, and when inside the bar keep the buoy on the starboard hand and steer N.N.W. until the beacon comes on with the cliff of Cape Radstock, after which clear anchorage with at least 2½ fathoms will be found from N.N.W. to N.E. for 3 cables, beyond which the bay gradually shoals to about 3 ft. at L.W.S. 1½ miles from the entrance.

Approximate position of buoy, lat. 33° 11½' S., long. 134° 21' E. All bearings are magnetic.

These affect Admiralty charts Nos. 1081 and 1086.

*Cape Willoughby—Subsidiary light discontinued.*

No. 129 (third publication).—With reference to this office Notice to Mariners No. 155, dated the 1st April 1909, the President of the Marine Board, Port Adelaide, has given further Notice (No. 1 of 1910) that the Red light mentioned therein, exhibited from the lower part of the tower, and showing over the Scrapper shoal from about south by west until shut in by the high land of Cape St. Albans, will be discontinued on the 1st May next.

This affects Admiralty charts Nos. 2189B, 1014 and 25.

## SOUTH AUSTRALIA—WEST COAST.

(1) *Venus bay*—Beacons erected.(2) *Beard bay*—Buoy and beacon established.

No. 136 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 2 of 1910) that—

- (1) *Venus bay*.—A pair of leading beacons, 500 ft. apart, painted white and having triangular tops, have been erected on the north side of the entrance to Venus bay. These kept in line N. 23° E. lead over the deepest water on the outer bar. Also that a beacon, painted red, having a triangular top, has been placed on the south side of the channel just above No. 1 Red Beacon. This beacon in line with No. 1 Black Beacon N. 67° E. leads over the deepest water on the inner bar and midway between the two points forming the entrance.

Vessels entering the bay should steer for the outer white leads until the inner black and red leads come in line; then steer for them until well over the bar, from whence the black beacon is to be kept on the port hand, as usual.

Approximate position of front white beacon, lat. 33° 13½' S., long. 124° 39½' E.

- (2) *Beard bay*.—A red perch buoy has been placed in three and a half fathoms L.W.S. inside the rocky bar at the entrance to Beard bay. This buoy kept in line with Calca Bluff N. 7° W. leads over the deepest and generally smoothest water on the bar, giving a depth not less than 10 ft. at L.W.S. Also that a beacon, painted black, having a triangular top, has been erected on the top of the sandhill on the west side of the entrance. In line with the perpendicular cliff of Cape Radstock S. 42° W. it leads clear of the N.W. edge of Propeller rock, which is situated about half a cable N. x W. from the buoy, and has on it about 6 ft. at L.W.S.

Vessels intended for entering should steer for the buoy in line with Calca Bluff, and when inside the bar keep the buoy on the starboard hand and steer N.N.W. until the beacon comes on with the cliff of Cape Radstock, after which clear anchorage with at least 2½ fathoms will be found from N.N.W. to N.E. for 3 cables, beyond which the bay gradually shoals to about 8 ft. at L.W.S. 1½ miles from the entrance.

Approximate position of buoy, lat. 33° 11½' S., long. 124° 21' E. All bearings are magnetic.

These affect Admiralty charts Nos. 1061 and 1066.
